Saturday,

Hello,

I wanted to write to express my frustration regarding my first amendment rights being violated, and how I associate this violation being associated with your organization.

If Mike Rosen and Rush Limbaugh can express their views, why can not RadioAmerica listeners and contributors express ours? The multi-faceted and yes subtle attack on the Boulder radio station airing this program is really gustapo in my eyes, and is helping to tear this country apart.

I hope that the management (or other person reading this and possibly not taking things 'upstairs') will realize that there are many of us (approximately 55MM at LEAST) who have American values that you do not share, yet deserve to be heard!

Thank you!

Peter Kelly / Denver, Colorado

PS - I also email this text to fccinfo.fcc.gov.

Thank you!
